FOREWORD

In December 2019, the world was first recognized novel coronavirus disease 2019 (COVID-19). Then, in January 2020 Thailand began to be alarmed about the disease, just before the World Health Organization (WHO) declared COVID-19 as pandemic on 11 March 2020. Since then, every life on the earth has changed. The ongoing COVID-19 pandemic has developed into a full-scale global air transportation crisis.

Besides, the widespread of COVID-19 within Thailand in March 2020 forced the Thai government to issue a Declaration of an Emergency Situation in all areas of the Kingdom of Thailand including the airspace shut down along with other countries. The outbreak of COVID-19 was impacting almost all industries and sectors worldwide. One of the most impacted sectors was travel and air transportation.

Both Airports and Airlines were set to be severely impacted by COVID-19 pandemic. Although aviation Industry has been through many crises in the past several years, such as financial crises, natural disasters, terrorism, and public health crises, none of the past crises could be compared to COVID-19.

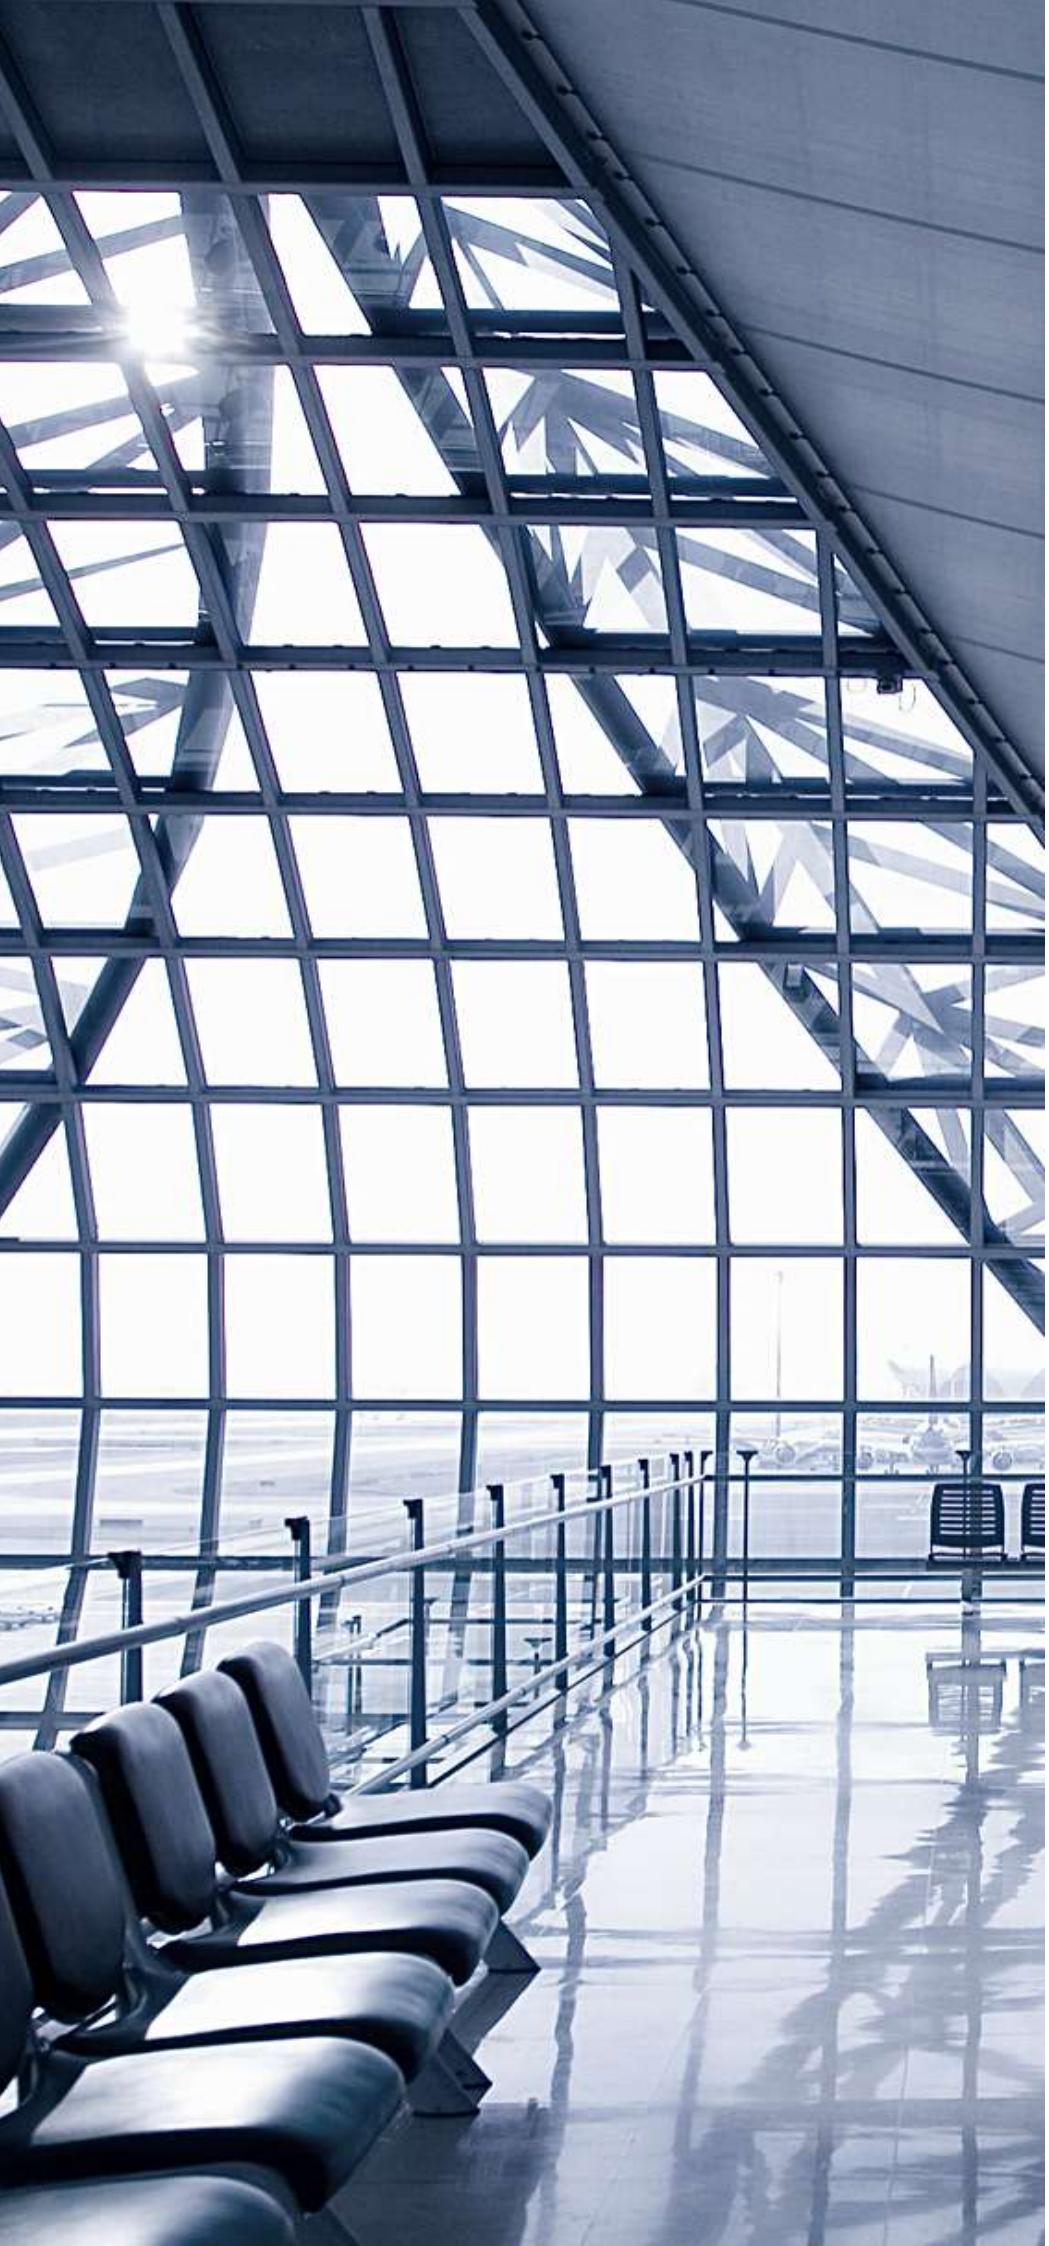

Unlike other crises, COVID-19 caused a significant negative disruption on passenger traffic, air cargo demand, and incoming revenues on aviation industry around the world. Therefore, AOT expected and prepared the post COVID-19 new world of challenging travel and air transportation for the coming years.

This report effectively provides statistic data of the 6 AOT's airports covering aircraft movement, passenger, and cargo in many dimensions. The readers can easily access to numerous statistical documents, and gain benefits from in-depth detail of data.

LOW COST CARRIERS TRAFFIC OVERVIEW

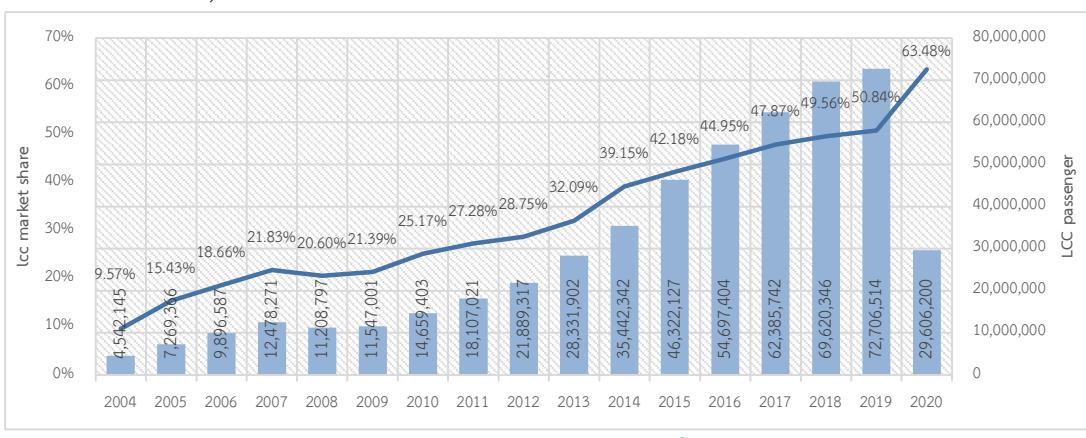

In December 2003, the first low cost airline, One-Two-Go airline, operated by Orient Thai Airlines, was launched in Thailand. Thai Air Asia and Nok Air were launched later in early and mid-2004 respectively. LCC in Thailand significantly increased from

4.54 million in 2004 to 72.71 million in 2019, with a CAGR of 16.6% over the past 15 years. However, due to the situation of Coronavirus outbreak (COVID-19), passenger traffic fell by 59.28% in 2020 compared to 2019.

In 2020, low cost airlines currently served more than 60 percent of passenger market share. Thai Air Asia carried the most LCCs passengers with around 38% of total LCCs passengers. The drastic increase took place after Thai Air Asia switched from Suvarnabhumi to Don Mueang in 2011 and the emergence of Thai Lion Air in 2013. Passengers highly gained more than 50 million since 2011, while took about a

decade to reach the first 20 million passengers. The COVID-19 pandemic situation had an impact on the decrease of the number of LCCs passengers of the most AOT airports except Suvarnabhumi airport. Suvarnabhumi's LCCs domestic passengers increased because Thai Air Asia expanded second hub at Suvarnabhumi airport in September 2020.
